Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

1. (Previously Presented) A casket comprising:  
  
a casket shell;  
  
a casket lid close able upon said shell; and  
  
deployable structure, operably associated with at least one of said shell and said lid, and integrally formed therewith, which, when deployed, defines a memorial surface adapted to have placed thereon items of memorialization for display, said deployable structure configured and arranged for display only of said items and not for storage of said items;  
  
said structure being so configured and arranged such that the items of memorialization must be removed therefrom when said structure is not deployed.
2. (Original) The casket of claim 1 wherein said deployable structure is operably associated with said shell.

7. (Original) The casket of claim 4 wherein said shelf is mounted to said shell at an end thereof.

8. (Original) The casket of claim 4 wherein said shelf is mounted to said shell at a side thereof.

9. (Previously Presented) The casket of claim 2 wherein said deployable structure includes a shelf pivotally mounted to said shell at a forward side thereof and at an upper edge thereof, said shelf adapted to be deployed by first opening said lid, pivoting said shelf out of said shell and then closing said lid.

10. (Previously Presented) The casket of claim 2 wherein said deployable structure includes a shelf pivotally mounted to said shell at a foot end thereof and at an upper edge thereof, said shelf adapted to be deployed by first opening said lid, pivoting said shelf out of said shell and then closing said lid.

11. (Original) The casket of claim 2 wherein said shell includes a shelf slidably mounted therein, said shelf adapted to be deployed by pulling said shelf out of said shell.

18. (Original) The casket of claim 17 wherein said lid includes a shadow box mounted to an underside thereof, said shadow box including a plurality of horizontal shelves upon which the items of memorialization can be placed and vertical divider panels defining, with said shelves, a plurality of three dimensional frames within which the items of memorialization can be displayed.

19. (Original) The casket of claim 17 wherein said lid extends the full length of said shell and is readily detachable therefrom, and wherein said lid includes a plurality of vertical divider panels which, when said lid is detached from said shell and positioned upright on an end thereof, forms an upstanding, freestanding set of shelves upon which the items of memorialization can be displayed.

20. (Original) The casket of claim 17 wherein said lid includes a lower portion and an upper portion pivoted to said lower portion, said upper portion adapted to be deployed by pivoting said upper portion away from said lower portion.

21. (Original) The casket of claim 20 wherein said upper portion is pivoted to said lower portion at a foot end edge thereof.
